

# Offering the entire value chain

R&D is heavily industry-driven — by big pharma as well as by most promising startups. Furthermore, big production units, first rate talent pool and an ecosystem of specialized partners make Basel one of the world's most complete life sciences ecosystems.

## Research & development

The private sector accounted for 69% of R&D expenditure in Switzerland in 2012, of which 40% was defrayed in the Basel region.

## Production

Nowhere else in the world has a higher production volume (USD 19bn) and higher hourly productivity (USD 322m) than the Basel region.

## Know-how and talent pool

In the Basel region, you will find expertise in every field: Business Development, Finance, Regulatory Affairs, Sales & Marketing.
